Available Support & Service Record Types

Record Type Name	Description
Brief Interaction	Record a quick check-in or referral with a person. These records do not impact scheduling and reminders.
Group Attendance	Record the person attending an activity or group that has been created through the Activity Log tab. Can be used for detailed recovery service log or basic attendance.
Recovery Coaching	Record recovery coaching session notes and related outcomes including goals, referrals, and material distributions when used. Record creation will update scheduling and helps identify participants with active supports.
Supplies, Materials & Goods	Record materials provided to the person including the types, quantities, and cost.
Telephonic Recovery Support	Record recovery check-in and capture any referrals or progress on goals. Record creation will update reminders and helps identify participants with active supports.
Transportation Log	Record transportation of participant including mileage and start/end points.
Volunteer Log	Record person's activity volunteering including type of activity, time spent, and notes.
